

Ulmus parvifolia 'Todd'

TODD CHINESE ELM

This semi deciduous tree has a lovely pendular habit with bright green serrated leaves. Its bark is smooth and flaky in various shades including grey, rust brown and cream. In autumn its foliage turns various shades of yellow before falling. This variety was chosen for its upright growth habit.

A good feature tree. Can also be used in street plantings due to its upright growth.

Tolerates most soil types in a full sun position. Wetness, for short periods, is tolerated.
